

VALERIO HORIZONTAL SPECIFICATION

*Note: The distance between the connection centres equals the length of the radiator

Valerio Horizontal

Radiator (mm) 350x1040

Water Content Per Element/Tube (L) 2.56

Radiator (mm) 550x880

Water Content Per Element/Tube (L) 3.17

Radiator (mm) 550x1230

Water Content Per Element/Tube (L) 4.59

Valerio Horizontal

Radiator (mm) 550x565

Water Content Per Element/Tube (L) 2.11

Radiator (mm) 350x1420

Water Content Per Element/Tube (L) 3.49

Radiator (mm) 550x1420

Water Content Per Element/Tube (L) 5.30

All Vaporo radiators are BOE and pipe centres are the radiator width plus 74mm.

If used with Vaporo Valves.

Please note due to manufacturing tolerances pipe centres may vary by +/- 10mm, we recommend that pipe work is not altered until your radiator is on site.

All Valerio Radiators:

Test Pressure: 13 barMax Operating Pressure: 10 Bar
